- Ideal for weak or injured ankle or injury prevention.
- The top opening helps to adjust the compression and put on & off easily.
- Open toe and heel can fix the ankle support in position and provide comfort.

Size : S • M • L • XL • XXL

EASY FIT SELF-ADHESIVE WRAP SERIES

- ◆ Designed to support and stabilize the joint
- ◆ Made of multi-loop elastic straps to provide self-adhesive feature
- ◆ Provide contour adjustment for comfort fit
- ◆ Simple to wrap and easy application

Soft Stay

B4-015 Self-adhesive Wrist Wrap

- Designed for all size of wrist and easy to adjust the compression for a perfect fit.
- Made of multi-loop elastic straps to provide self-adhesive feature.
- Stabilize the weak or injured wrist or prevent the wrist injury while overuse.
- Thumb hole helps to wrap simply and fix the wrist support in position.

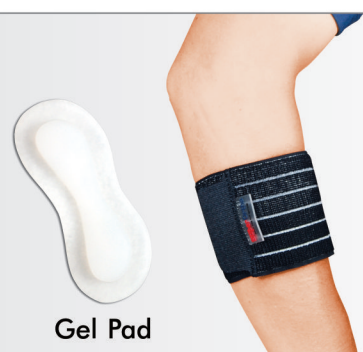

Width : 3" Length : 28.5cm Size : One size

B7-005 Self-adhesive Knee Wrap

- Designed for all size of knee and easy to adjust the compression for a perfect fit.
- Made of multi-loop elastic straps to provide self-adhesive feature.
- Stabilize the weak or injured knee or prevent the knee injury while overuse.
- It can wrap simply and avoid some unnecessary compression points.

Width : 4.5" Length : 90cm Size : One size

Gel Pad

B3-004 Self-adhesive Elbow Wrap

- Designed for all size of elbow and easy to adjust the compression for a perfect fit.
- Made of multi-loop elastic straps to provide self-adhesive feature.
- Stabilize the weak or injured elbow or prevent the elbow injury while overuse.
- Gel pad position on the elbow tendon can prevent sprain or strain.

Width : 3" Length : 40cm Size : One size

B9-008 Self-adhesive Ankle Wrap

- Designed for all size of ankle and easy to adjust the compression for a perfect fit.
- Made of multi-loop elastic straps to provide self-adhesive feature.
- Stabilize the weak or injured ankle or prevent the ankle injury while overuse.
- It can wrap simply and avoid some unnecessary compression points.

Width : 3" Length : 50cm Size : One size

3D SUPPORT SERIES

A5-101 3D Lumbar Support w/ 4 Stays & Back Pad

- Advanced 3 Dimensional knitting secures best fit.
- The removable Gel Pad & 4 Stays could give additional support and stabilization to the back.
- Equal compression to the muscle tissue, helps to reduce pain and swelling.
- Breathable material and a look of simplicity.

Back Height: 21.6 cm
Size : S • M • L • XL • XXL

A3-023 3D Elbow Support w/ Gel Pad

- Advanced 3 Dimensional knitting secures best fit.
- The Gel Pad could give additional support and stabilization to the elbow.
- Equal compression to the muscle tissue, helps to reduce pain and swelling.
- Breathable material and a look of simplicity.

Size : S • M • L • XL • XXL

A4-071(Left) A4-072(Right) 3D Wrist Support w/ Gel Pad & Stay

- Advanced 3 Dimensional knitting secures best fit.
- The Gel Pad & Stay could give additional support and stabilization to the wrist.
- Equal compression to the muscle tissue, helps to reduce pain and swelling.
- Breathable material and a look of simplicity.

Size : S • M • L • XL • XXL

3D SUPPORT SERIES

A7-048
3D Knee Support w/ Gel Pad & 2 Stays

- Advanced 3 Dimensional knitting secures best fit.
- The Gel Pad & Stay could give additional support and stabilization to the knee.
- Equal compression to the muscle tissue, helps to reduce pain and swelling.
- Breathable material and a look of simplicity.

Size : S • M • L • XL • XXL

A9-032
3D Ankle Support w/ Gel Pad

- Advanced 3 Dimensional knitting secures best fit.
- The Gel Pad could give additional support and stabilization to the ankle.
- Equal compression to the muscle tissue, helps to reduce pain and swelling.
- Breathable material and a look of simplicity.

Size : S • M • L • XL • XXL

ELASTIC SUPPORT SERIES

- ♦ *Manufactured by knitting construction.*
- ♦ *Good ventilation for the skin.*
- ♦ *Provides good compression*

A7-042
New Mesh Knee Support w/2 stays

- Elastic Airmesh material, excellent ventilation.
- Spiral stays provide mild support to the knee.
- Silicone padding for kneecap stabilization.
- Anatomical shape for snug fit.

Size : S • M • L • XL • XXL

ELASTIC SUPPORT SERIES

A7-043
New Mesh Knee Support w/ROM hinge

- Elastic Airmesh material, excellent ventilation.
- ROM hinge allows extension/flexion control.
- Silicone padding for patella and joint stabilization.
- Open type for easy use.

Size : S • M • L • XL • XXL

A7-001
Knee Support w/ 4 stays

- Prevent knee strains or sprains or stabilize the injured knee while motion.
- Made of circular knitting bandage to provide good ventilation and compression for the knee.
- The internal is the cotton can absorb the moisture.
- The lateral stays offer the additional support and stability and open patella can position the knee and avoid the displacement.

Size : S • M • L • XL • XXL

A7-004
13" Knee Stabilizer w/ Strap

- Prevent knee strains or sprains or stabilize the injured knee while motion.
- Made of circular knitting bandage can provide free ventilation.
- The 4 lateral stays offer additional support and stability and open patella can position the knee and avoid the displacement.
- Elastic strap on the top can secure the fit.

Size : S • M • L • XL • XXL

A3-021
Elastic Elbow Support

- Protect elbow and keep warm.
- Mild compression helps to improve blood circulation and relieve elbow pain.
- Elastic and breathable for comfortable fit.

Size : S • M • L • XL • XXL

A7-044
Elastic Knee Support

- Protect knee and keep warm.
- Mild compression helps to improve blood circulation and relieve knee pain.
- Elastic and breathable for comfortable fit.

Size : S • M • L • XL • XXL

A7-045
Elastic Knee Support w/2 stays

- Protect knee and keep warm.
- Lateral spiral stays provide additional support.
- Mild compression helps to improve blood circulation and relieve knee pain.
- Elastic and breathable for comfortable fit.

Size : S • M • L • XL • XXL

A9-027
Elastic Ankle Support

- Protect ankle and keep warm.
- Mild compression helps to improve blood circulation and relieve ankle pain.
- Elastic and breathable for comfortable fit.

Size : S • M • L • XL • XXL

A3-003
Compression Elastic Elbow

- Prevent and support the sports and works related elbow injury.
- Made of circular knitting construction can provide good ventilation.
- Provide high compression.
- Four-way stretch can easy to put on and off.
- The particular knitting construction on the elbow joint to avoid some unnecessary compression.

Size : S • M • L • XL • XXL

ELASTIC SUPPORT SERIES

A7-010
Compression Elastic Knee

- Prevent and support the sports and works related knee injury.
- Made of circular knitting construction can provide good ventilation.
- Provide high compression.
- Four-way stretch can easy to put on and off.
- The particular knitting construction on the knee patella to avoid some unnecessary compression.

Size : S • M • L • XL • XXL

A9-004
Compression Elastic Ankle

- Prevent and support the sports and works related ankle injury.
- Made of circular knitting construction can provide good ventilation.
- Provide high compression.
- Four-way stretch can be easy to put on and off.
- The particular knitting construction on the heel and bended part of ankle to avoid some unnecessary compression.

Size : S • M • L • XL • XXL

A2-002
Elastic Shoulder Support

- Prevent and support sports and work related shoulder or clavicular injury.
- Universal design is available for left & right shoulder.
- The shape design and soft materials can fit the shoulder snugly.
- The opening on the sleeve can be easy to put on and off.
- The internal cotton can absorb the moisture.

Size : S • M • L • XL • XXL

A3-007
Elastic Elbow Support

- Prevent and support the sports and works related elbow injury.
- Made of circular knitting construction.
- The internal cotton can absorb the moisture.
- The knitting construction can provide free ventilation and four-way stretch can help to put on and off easily.

Color:   
Size : S • M • L • XL • XXL

A4-032
Elastic Palm with Wrist Support

- Prevent and support the sports and works related wrist injury.
- Made of circular knitting construction.
- Four-way stretch can help to put on and off easily.
- The internal cotton can absorb the moisture.
- The palm and thumb opening fix the support in position.

Color:   
Size : S • M • L • XL • XXL

A6-002
Elastic Thigh Support

- Prevent the thigh strain while overuse.
- Made of circular knitting construction.
- The internal cotton can absorb the moisture.
- Four-way stretch can help to put on and off easily.

Color:   
Size : S • M • L • XL • XXL

A7-002
Elastic Knee Support

- Prevent the knee sprain or strain while overuse or support injured knee.
- Made of circular knitting construction.
- The internal cotton can absorb the moisture.
- Four-way stretch can help to put on and off easily.

Color:   
Size : S • M • L • XL • XXL

A8-001
Elastic Calf Support

- Prevent sports and work related calf injury.
- Give a proper support and compression.
- Relieve pain and swelling.
- Inner contains the cotton material.
- Speed up recovery.

Color:   
Size : S • M • L • XL • XXL

ELASTIC SUPPORT SERIES

A9-009
Elastic Ankle Support

- Prevent and support the sports and works related ankle injury.
- Made of circular knitting construction.
- The internal cotton can absorb the moisture.
- The knitting construction can provide free ventilation and four-way stretch can help to put on and off easily.

Color:   
Size : S • M • L • XL • XXL

A3-001
3" Elastic Elbow Wrap

- Prevent and support the sports and works related elbow injury.
- The self-adhesive knitting strap can allow the hook closure to adjust a proper size compression.
- Soft touching and good ventilation materials.
- Easy to wrap the joint snugly.

Size : One size

A7-003
4" Elastic Knee Wrap

- Prevent and support the sports and works related knee injury.
- The self-adhesive knitting strap can allow the hook closure to adjust a proper size compression.
- Soft touching and good ventilation materials.
- Easy to wrap the joint snugly.

Size : One size

A4-002
Elastic Wrist Support

- Made of good quality and high elastic knitting strap, elastic loop, and hook closure.
- Elastic loop with hook closure can allow adjust the size to fit wrist snugly.
- Elastic knitting strap can provide good ventilation for the skin and light compression.

Size : S/M • L/XL • XXL

A9-001
Elastic Ankle Warp

- Designed to support, stabilize the injured ankle, and also prevent ankle injury during sports or work activity.
- The durable elastic band with self-adhesive elastic strap can wrap the ankle to provide proper compression and stabilization.

Size : S/M • L/XL • XXL

B7-001
Knee Patella

- Support patella and injury prevetion.
- Provide uniform pressure and helps pain relief.
- Patellar pad gives compression and stabilization.
- One size design can fit most knee.

Size : One size

B3-001
Ventilative Elbow Support

- Use the rayon and cotton materials can absorb the moisture effectively.
- The elastic band can provide free ventilation and high compression.
- Elastic strip cross the elbow joint design can provide anatomically fit and comfort.
- The reversible design can be worn for both sides of elbow.

Size : S • M • L • XL • XXL

B7-002
Ventilative Knee Support

- Use the rayon and cotton materials can absorb the moisture effectively.
- The elastic band can provide free ventilation and high compression.
- Elastic strip cross the knee joint design can provide anatomically fit and comfort.
- The reversible design can be worn for both sides of knee.

Size : S • M • L • XL • XXL

ELASTIC SUPPORT SERIES

B4-001
Weaving Wrist Support (Adjustable)

- Prevent the injury from sports or work activities requiring repetitive movement of the wrist.
- Made of durable elastic knitting strap can provide good ventilation and contain cotton material can absorb the moisture.
- The hook and loop closure allow adjust the size to fit wrist snugly.

Size : S/M • L/XL

B4-002
Weaving Wrist Support

- Prevent the injury from sports or work activities requiring repetitive movement of the wrist.
- Made of durable elastic knitting strap can provide good ventilation and contain cotton material can absorb the moisture.

Size : S • M • L • XL • XXL

B9-001
Ankle Support

- Support, stabilize the injured ankle, and also prevent ankle injury during sports or work activity.
- The durable elastic weaving band contain rayon can absorb the moisture effectively, extremely breathable.
- Open heel can avoid displacement.

Size : S • M • L • XL • XXL

B9-002
Ankle Support

- Support, stabilize the injured ankle, and also prevent ankle injury during sports or work activity.
- The durable elastic weaving band contain the high quality rayon and cotton material can absorb the moisture effectively, extremely breathable.
- Open heel can avoid displacement.

Size : S • M • L • XL • XXL

ACTIVE ELASTIC GEL PAD SUPPORT

The active pattern elastic support with anatomical knitting construction provides a proper compression for the joints to accelerate the blood circulation and avoid some unnecessary pressure points to give more comfort while wearing. Gel pad provides an additional protection and continuous massage for the soft tissue, tendon or ligament.

A3-014 Active Elastic Gel Pad Elbow Support

- Gel pad is welded on the inner of elastic support to support and protect the tendon and soft tissue of elbow to avoid strain or sprain.
- The gel pad also can provide massage effect continuously while motion to promote the blood circulation.
- Anatomical knitting construction can avoid some unnecessary pressure on the bended part of elbow and make more stretchable on the elbow joint to enhance the comfort.

Color : Dim Grey/ Grey/ Orange
Dim Grey/ Beige/ Orange
Size : S • M • L • XL • XXL

A4-045(Left) A4-053(Right) Active Elastic Gel Pad Wrist Palm Support

- Gel pad is welded on the inner of elastic support to support and protect the soft tissue of wrist and palm to avoid strain or sprain.
- The gel pad also can provide massage effect continuously while motion to promote the blood circulation.
- Anatomical knitting construction to fit the wrist snugly.

Color : Dim Grey/ Grey/ Orange
Dim Grey/ Beige/ Orange

Size : S • M • L • XL • XXL

ACTIVE ELASTIC GEL PAD SUPPORT

A7-024 Active Elastic Gel Pad Knee Support

- Circular gel pad is welded on the inner of elastic support to support and protect the patella to avoid knee strain or sprain.
- The gel pad also can provide massage effect continuously while motion to promote the blood circulation.
- Anatomical knitting construction can avoid some unnecessary pressure on the popliteal and make more stretchable on the knee cap to enhance the comfort.

Color : Dim Grey/ Grey/ Orange
Dim Grey/ Beige/ Orange
Size : S • M • L • XL • XXL

A7-025 Active Elastic Gel Pad Knee Stabilizer

- Circular gel pad is welded on the inner of elastic support to support and protect the patella to avoid knee strain or sprain.
- The gel pad also can provide massage effect continuously while motion to promote the blood circulation.
- Anatomical knitting construction can avoid some unnecessary pressure on the popliteal and make more stretchable on the knee cap to enhance the comfort.
- The lateral spiral stays on both sides of knee provide additional support and stability for the knee.

Color : Dim Grey/ Grey/ Orange
Dim Grey/ Beige/ Orange
Size : S • M • L • XL • XXL • XXXL

A9-017 Active Elastic Gel Pad Ankle Support

- Gel pad is welded on the inner of elastic support to support and protect the ligament and soft tissue around ankle joint to avoid strain or sprain.
- The gel pad also can provide massage effect continuously while motion to promote the blood circulation.
- Anatomical knitting construction can avoid some unnecessary pressure on the bended part of ankle and make more stretchable on the heel to enhance the comfort.

Color : Dim Grey/ Grey/ Orange
Dim Grey/ Beige/ Orange
Size : S • M • L • XL • XXL

ACTIVE ELASTIC GEL PAD SUPPORT

A3-022 Elbow Support w/ Gel Pad

- Anatomical shape and pattern knitting construction.
- Mild compression and support for the elbow.
- Gel pad for additional pressure and stabilization to the joint.
- Help to reduce pain and swelling
- Breathable and colorful look

Size : S • M • L • XL • XXL

A4-069 (Left) A4-070 (Right) Wrist Support w/ Gel Pad

- Anatomical shape and pattern knitting construction.
- Mild compression and support for the wrist.
- Gel pad for additional pressure and stabilization to the joint.
- Help to reduce pain and swelling
- Breathable and colorful look

Size : S • M • L • XL • XXL

A7-047 Knee Support w/ Gel Pad & 2 Stays

- Anatomical shape and pattern knitting construction.
- Gel Pad & Stays could give additional support and stabilization to the knee.
- Gel pad for additional pressure and stabilization to the joint.
- Help to reduce pain and swelling
- Breathable and colorful look

Size : S • M • L • XL • XXL

A9-031 Ankle Support w/ Gel Pad

- Anatomical shape and pattern knitting construction.
- Mild compression and support for the ankle.
- Gel pad for additional pressure and stabilization to the joint.
- Help to reduce pain and swelling
- Breathable and colorful look

Size : S • M • L • XL • XXL

BAMBOO CHARCOAL SUPPORT SERIES

- ◆ Made of nano bamboo charcoal yarn, spandex and nylon materials, latex free products.
- ◆ Charcoal material can keep body warm, fast drying, anti-bacteria and resistant UV.
- ◆ 100% computerized knitting circular supports, seamless.
- ◆ Anatomic knitting and can contour the body shape.
- ◆ 4-way stretch can provide a best fit.

A7-011 Charcoal Compression Knee

- Prevent the knee injury while doing exercise or support the injured knee to relieve the pain.
- Super thin construction on knee patella and popliteal to enhance comfort during motion.
- Seamless can fit the joint comfort.

Color : Grey w/ Black
Size : S • M • L • XL • XXL

A3-004 Charcoal Compression Elbow

- Prevent the elbow injury while doing exercise or support the injured elbow to relieve the pain.
- Super thin construction on elbow joint to enhance comfort during motion.
- Seamless can fit the joint comfort.

Color : Grey w/ Black
Size : S • M • L • XL • XXL

A4-028 Charcoal Compression Wrist w/ Thumb

- Prevent the wrist and thumb sprain or strains while doing exercise or support the injured wrist and thumb to relieve the pain.
- More high compression construction on wrist joint to support the wrist.
- Seamless can fit the joint comfort.

Color : Grey w/ Black
Size : S • M • L • XL • XXL

A9-005 Charcoal Compression Ankle

- Prevent the ankle sprain or strains while doing exercise or support the injured ankle to relieve the pain.
- Thin construction on the heel and bended part of ankle to reduce some unnecessary compression.
- Seamless can fit the joint comfort.

Color : Grey w/ Black
Size : S • M • L • XL • XXL

WRIST SPLINT

O4-049 Wrist Splint

- Provide support and immobilization for injured wrist and palm, extension protection to finger parts.
- Aluminum stay to give firm support, Airmesh is comfortable for wearing.
- Universal for both hands.

Size : S/M • L/XL • XXL

B4-020 (L) B4-021 (R) Wrist Support w/enhanced binder

- Protect and support injured wrist.
- Shaped palm stay for rigid support.
- Lace binder for easy use.
- Soft and breathable material

Side : Right or Left hand
Size : S/M • L/XL • XXL

O4-041 Wrist Splint w/adj. length

- Provide support to wrist, palm and forearm.
- Stabilize instable wrist.
- Adjustable splint length.
- Extra padding for comfortable use.
- Strap can be cut to get proper length.

Side : Universal for both hands
Size : One Size

O4-001 Wrist with thumb Splint

- Good immobilization for the post-traumatic wrist and thumb.
- Aluminum stay and plastic stays stabilizes the wrist in position.
- The foam padding provides the soft cushioning.

Side : Right or Left hand
Size : S • M • L • XL • XXL

WRIST SPLINT

O4-002 Wrist Splint

- Good immobilization for the post-traumatic wrist.
- Aluminum stay and plastic stays stabilizes the wrist in position.
- The foam padding provides the soft cushioning.

Side : Right or Left hand
Size : S • M • L • XL • XXL

C4-002 Neoprene Wrist Splint

- Good immobilization for the post-traumatic wrist and thumb.
- Aluminum stays stabilizes the wrist in position.
- Neoprene provides the soft cushioning.

Side : Right or Left hand
Size : S • M • L • XL • XXL

A4-001 Elastic Wrist Splint

- Immobilization of the post-traumatic wrist.
- Made of quality elastic fabrics with vents.
- Strengthening strap can secure prefect fit.
- Aluminum stay stabilizes the wrist in position.
- Universal size for right and left hand.

Size : One size

A4-003 Breathable Wrist Splint

- Immobilization of the post-traumatic wrist.
- Made of quality elastic fabrics with vents.
- Self-adhesive strengthening strap can easy to adjust and offer a proper compression for the wrist.
- Aluminum stay stabilizes the wrist in position.
- Provide good ventilation.

Side : Right or Left hand
Size : S • M • L • XL

WRIST SPLINT

A4-050

A4-079 (2 stays on both sides) 8" Air Mesh Wrist Splint

- Air mesh allows the air exchange to keep the skin dry.
- The aluminum stay can be bended for proper support to fit the wrist and immobilize the wrist in position.
- Additional straps wrap the wrist to give firmly fit and support.
- The stays pouches on both side and the aluminum stay can be removable to fit right or left hand.

Side : Universal for both hands
Size : S • M • L • XL • XXL

WRIST SPLINT

O4-045

Wrist Splint

- Immobilize injured thumb or CMC ligament sprains.
- Shaped thumb stay provides snug contour and better fit.
- Breathable Airmesh material.
- Soft foam padding for comfortable use.
- Universal for right or left hand .

Side : Universal for both hands
Size : S/M • L/XL

A4-048 (Left) A4-049 (Right) 6" Air Mesh Wrist Splint

- Air mesh allows the air exchange to keep the skin dry.
- The aluminum stay can be bended for proper support to fit the wrist and immobilize the wrist in the position.

Color:
Side : Right or Left hand
Size : S • M • L • XL • XXL

B4-003 Weaving 6" Wrist Splint

- Immobilization of the post-traumatic wrist.
- Use breathable, soft, and moisture absorbing cotton material.
- Aluminum stays stabilizes the wrist in position.
- Good ventilation.

Side : Right or Left hand
Size : S • M • L • XL • XXL

B4-004 Weaving 8" Wrist Splint

- Immobilization of the post-traumatic wrist.
- Use breathable, soft, and moisture absorbing cotton material.
- Aluminum stays stabilizes the wrist in position.
- Good ventilation.

Side : Right or Left hand
Size : S • M • L • XL • XXL

C4-018

Wrist Thumb Splint

- Made of neoprene to provide heat therapy to accelerate the blood circulation.
- The aluminum stay can be bended for proper fit to immobilize the thumb in position.
- Additional elastic loop straps wrap the wrist to give firmly fit and support.
- The inner foam padding give thumb more comfort and cushion.

Side : Universal for both hands
Size : One size

O4-055 Finger Exerciser

- Aluminum plate could adjust to fit the palm shape
- Strength could be adjusted easily by elastic string
- Foam padding for comfortable wearing
- One size and universal for both hands

Size : One size

O4-053 (L) O4-054 (R) Adjustable Thumb Stabilizer

- Ideal to stabilize the injury thumb joint and help speed up recovery
- Contoured Shape to fit whole thumb and comfortable for long time wearing

Side : Right or Left hand
Size : S • M • L

ARM SLING

O4-052 (Print) O4-040 (Blue) Children's Arm Sling

- Good immobilization for the post-traumatic arm & shoulder.
- Reduce pain and swelling.
- The strap is adjustable.

Color:  

Size : One size

O4-003 Arm Sling (Nylon)

- Good immobilization for the post-traumatic arm & shoulder.
- The forearm fabric adopts durable nylon material.
- Additional foam pad on the shoulder can reduce the pressure.

Size : S • M • L • XL • XXL

O4-004 Arm Sling (Cotton)

- Good immobilization for the post-traumatic arm & shoulder.
- The forearm fabric adopts cotton can absorb moisture effectively.
- Additional foam pad on the shoulder can reduce the pressure.

Size : S • M • L • XL • XXL

O4-005 Adjustable Arm Sling

- Good immobilization for the post-traumatic arm & shoulder.
- The forearm foam pad can enhance comfort.
- Two straps cross the shoulder can reduce the pressure.
- Simple to put on and off.

Size : One size

O4-021 Arm Sling w/ Swathe

- Ideal for immobilization of the dislocation, postoperative or fracture arm or shoulder.
- High density foam to give more cushion and comfort.
- Two straps with padding crisscross the back around to forearm to reduce some unnecessary pressure and relieve the pain from shoulder while wearing for a long time.
- Swathe with hook closure can secure the fit and avoid the dislocation of arm.

Size : One size

CLAVICLE BRACE & POSTURE BRACE

O2-001 Clavicle Brace

- Made of soft velours with high density foam padding.
- Adjustable Velcro can provide a proper fit.
- Provide a fixation and treatment for clavicular fracture.

Size : S • M • L • XL • XXL

A2-001 Clavicle Support

- Made of cotton stockinet with soft foam padding.
- Adjustable Velcro can provide a proper fit.
- Provide a fixation and treatment for clavicular fracture.

Size : S • M • L • XL • XXL

B2-002 Posture Corrector

- Correct the posture.
- Cotton material is friendly to the skin.
- Simple to put on and off.

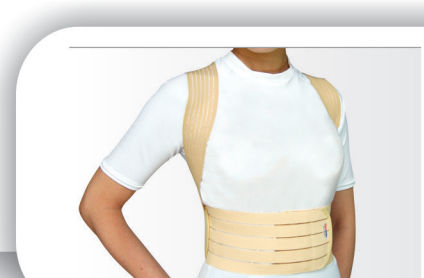

Size : S • M • L • XL • XXL

O2-007 Elastic Posture Brace

- Made of elastic materials can provide compression and ventilation.
- Correct the posture and prevent the backache.
- Simple to put on and off.

Size : S • M • L • XL • XXL

CLAVICLE BRACE & POSTURE BRACE

4 extra stays

C2-003 C2-005 (4 extra stays) Magnetic Back Brace

- Designed to prevent and support the back pain caused incorrect posture.
- The breathable "EASY FIT" elastic loop strap is free to adjust the size for a perfect fit.
- Back side was made of neoprene with 12pcs of magnets to support the back.
- Magnets can offer Far-Infrared ray to accelerate the blood circulation and keep the body warmth to relieve the pain.

Size : S • M • L • XL • XXL

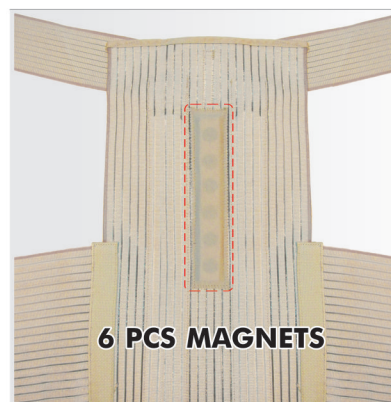

B2-001 B2-008 (6 PCS MAGNETS) Ventilative Vertebra Brace

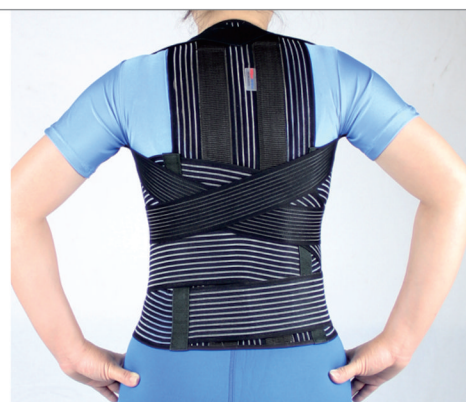

- Correct the posture.
- 2 Aluminum Stays to immobilize the back.
- High elastic to provide firmly support for lumbar and sacral regions.
- Breathable materials.
- Two straps cross the shoulder to give extra support.

Color:  

Size : S • M • L • XL • XXL

6 PCS MAGNETS

CERVICAL COLLAR

A1-002 Pediatric Soft Cervical Collar

- Immobilizes the injured neck.
- High density foam provides good cushioning and stabilization.
- Adopts the cotton material are friendly to the skin.

Color :  

Height : S / 4.5 cm
M / 6 cm
L / 7.5 cm
XL & XXL / 7.8 cm

Size : S • M • L • XL • XXL

A1-001 A1-013 (6 PCS MAGNETS) Adult Soft Cervical Collar-Skin

- Immobilizes the injured neck.
- High density foam provides good cushioning and stabilization.
- Adopts the cotton material are friendly to the skin.

Color :  

Height : 8 cm

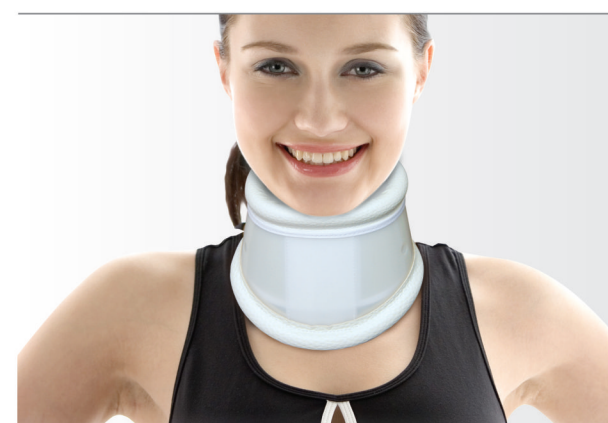

Size : XS • S • M • L • XL • XXL

O1-001 Philadelphia Cervical Collar

- Lightweight molded foam collar.
- Two pieces design easy to wear.
- Tracheostomy hole is in front.
- Immobilizes the neck, head and occipital and mandible.

Size : S/M • L/XL

O1-011 2-Piece Plastic Collar

- 2-piece construction easy to adjust.
- Plastic material with perforated vents.
- Padding on the border enhance comfort.

Height : S / 7.5 cm • M / 8 cm • L / 8.7 cm
XL / 10 cm • XXL / 10 cm

Size : S • M • L • XL • XXL

ORTHOPEDIC PRODUCT

B9-011

Ankle Support w/enhanced binder

- Protect and support instable ankle.
- Spiral stays provide medium stabilization.
- Lace binder for easy use.
- Universal for right or left ankle.
- Soft and breathable material.

Size : S • M • L • XL • XXL

O9-001

Ankle Brace w/ Adj. Lace

- Be utilized by stabilize the ankle injuries and sprains.
- Provide the lace to lock the brace in position.
- Shaped metal stays to provide a maximum stabilization.
- Helps reduce pain and swelling.
- Ventilated and absorbing moisture materials.

Color:  

Size : S • M • L • XL • XXL

B9-009

Lace Up Ankle Brace

- Stabilize the ankle ligament sprain and chronic instable ankle.
- Durable canvas material for long lasting wear and elastic straps on stretchable parts to enhance comfort.
- Lateral soft spiral stay supports the ankle ligament.
- It can be in any lace-up shoes.

Size : S • M • L • XL • XXL

O9-025 (Left) O9-026 (Right) Ankle Brace

- Immobilize the instable Ankle to help recovery and protect from second injury.
- Lightweight plastic shell.
- Inner Fabric give comfortable wearing.

Size : S • M • L

ORTHOPEDIC PRODUCT

O9-013

Gel Ankle Brace

- Restraint the inversion and eversion of instability ankle for a normal flexion.
- Suitable to wear while ankle rehabilitation or recovery stage.
- Tow injection molded shell have hot & cold packs to stabilize ankle and relieve the pain and swelling.
- Heel straps can be adjusted the size to fit ankle snugly and heel pad can enhance comfort.
- It can be worn in lace-up shoe to give more stabilization.

Size : one size

O9-014

Memory Foam Ankle Brace

- Restraint the inversion and eversion of instability ankle for a normal flexion.
- Suitable to wear while ankle rehabilitation or recovery stage.
- Tow injection molded shells have memory foam pads to stabilize ankle and provide the cushioning to relieve the pain.
- Heel straps can be adjusted the size to fit ankle snugly and heel pad can enhance comfort.
- It can be worn in lace-up shoe to give more stabilization.

Size : one size

O9-016

Air Ankle Brace with Pump

- Restraint the inversion and eversion of instability ankle for a normal flexion.
- Suitable to wear while ankle rehabilitation or recovery stage.
- Tow injection molded shells have air bladder to stabilize ankle and provide the cushioning to relieve the pain.
- The air bladder with inner foam pad to enhance comfort.
- Air pump can help air in and out to adjust desire cushion efficiently.
- Heel straps can be adjusted the size to fit ankle snugly and heel pad can enhance comfort.
- It can be worn in lace-up shoe to give more stabilization.

Size: one size

O9-002

Cast sandal

- Prevents slipping.
- Easy and comfortable to put on.
- Hook and loop closure.
- Ideal for cast foot or ankle.

L - 12.5" x 5.5"
XL - 14" x 5.5"
XXL - 15.25" x 6"

ORTHOPEDIC PRODUCT

O9-022 Forefoot Relief Shoe

- Designed to reduce Forefoot pressure and post-surgery recovery.
- Slip-resistance Bottom for safe walking.
- Fringe on toe area for extra protection, hook-and-loop fastener for easy use.
- High Quality Material for comfortable wearing.
- Universal for Left and Right foot.

Size : XS • S • M • L • XL • XXL

O9-023 (Air Pump) O9-024 Air Walker / Ankle Walker

- Stabilize the ankle, foot and lower leg after surgery or fracture.
- Lightweight plastic shell.
- Anti-Slip Rocky Bottom Sole.
- Inner Foam Pad provide best comfortable wearing.
- Air Pump provides additional therapeutic compression.
- Universal for Left or Right leg.

Height : 16 inch
Size : S • M • L • XL

O9-020 Air Walker w/ ROM Hinge

- 16" high, for a firm foot/ankle stabilization.
- ROM hinge for a control of ankle movement during rehabilitation.
- Air pump provides additional therapeutic compression .
- Rocking bottom for easy walk.
- Foam padded liner for soft and comfortable touch to the skin.
- Toes cover for a complete protection.

Height : 16 inch
Size : S • M • L • XL

O9-008 Fixed Ankle Walker

- Stabilize the ankle, foot and lower leg after surgery or fracture to decrease pain and edema as rehabilitation.
- Wider rocky bottom sole can help to shift the step easily and enhance comfort.
- Two fixed lateral alloy aluminum uprights stabilize the lower leg.
- High density foam as inner to provide better cushion.

Height : 16 inch
Size : S • M • L • XL

ORTHOPEDIC PRODUCT

O9-009 Fixed Ankle Walker

- Stabilize the ankle, foot and lower leg after surgery or fracture to decrease pain and edema as rehabilitation.
- Wider rocky bottom sole can help to shift the step easily and enhance comfort.
- Short two fixed lateral alloy aluminum uprights stabilize the ankle and foot.
- High density foam as inner to provide better cushion.

Height : 12 inch
Size : S • M • L • XL

O9-010 Ankle Walker with ROM

- Stabilize the ankle, foot and lower leg after surgery or fracture to decrease pain and edema as rehabilitation.
- Wider rocky bottom sole can help to shift the step easily and enhance comfort.
- Two lateral ROM hinges can control the range of motion between 0 to 120 degree flexion and 0 to 30 degree extension while rehab process.
- High density foam as inner to provide better cushion.

Height : 15.5 inch
Size : S • M • L • XL

O9-011 Short Ankle Walker with ROM

- Stabilize the ankle, foot and lower leg after surgery or fracture to decrease pain and edema as rehabilitation.
- Wider rocky bottom sole can help to shift the step easily and enhance comfort.
- Two lateral ROM hinges can control the range of motion between 0 to 120 degree flexion and 0 to 30 degree extension while rehab process.
- High density foam as inner to provide better cushion.

Height : 13.5 inch
Size : S • M • L • XL

O9-012 Ankle walker with Pull- Lock ROM

- Stabilize the ankle, foot and lower leg after surgery or fracture to decrease pain and edema as rehabilitation.
- Wider rocky bottom sole can help to shift the step easily and enhance comfort.
- Two lateral Pull-Lock ROM hinges can lock the angle quickly and easily. Range of motion settings are between 0 to 120 degree flexion and 0 to 30 degree extension.
- High density foam as inner to provide better cushion.

Height : 16 inch
Size : S • M • L • XL

S / 33 cm • M / 35.7 cm
L / 37 cm • XL / 37.7 cm

O4-050
Forearm Immobilizer

- Ideal to immobilize the postoperative or fracture forearm & wrist
- Hinge is adjustable for wrist extension or flexion
- Additional Hand Bar to put the wrist in position
- Soft foam for comfortable wearing

Size : one size

O3-003
Pull Lock ROM Elbow Splint

- Stabilize the instability elbow or arm after post-operative or cast removal.
- Pull-Lock ROM setting allows the elbow in normal range of motion.
- Two lateral Pull-Lock ROM hinges can lock the angle quickly and easily.
- Range of motion settings are between 0 to 120 degree flexion.
- Additional sling can provide more comfortable.

Size : one size

ORTHOPEDIC PRODUCT

O7-009 L
O7-010 R
Rom Knee Brace

- For mild to moderate unicompartmental osteoarthritis
- Lightweight single side hinge for easy angle adjustment
- Buckles for quick fastening and release
- Anti-slip soft padding
- Strap can be cut to get best fit

Side : Right or Left
Size : One size

O7-001
Pull-Lock ROM Knee Splint

- Stabilize the instability knee after surgery or cast removal.
- Pull-Lock ROM setting allows the knee in normal range of motion for rehabilitation.
- Two lateral Pull-Lock ROM hinges can lock the angle quickly and easily. Range of motion settings are between 0 to 120 degree flexion and 0 to 90 degree extension.
- Hinge bar can be adjustable for the length, the maximum is 72.5cm and minimum is 41.5cm. It can be shorten while the recovery is better.
- High density foam cushion with hook & loop closure can provide proper compression and comfort.

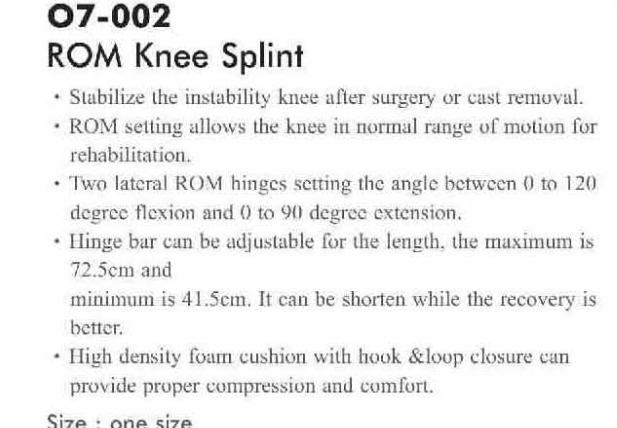

Size : one size

O7-002
ROM Knee Splint

- Stabilize the instability knee after surgery or cast removal.
- ROM setting allows the knee in normal range of motion for rehabilitation.
- Two lateral ROM hinges setting the angle between 0 to 120 degree flexion and 0 to 90 degree extension.
- Hinge bar can be adjustable for the length, the maximum is 72.5cm and minimum is 41.5cm. It can be shorten while the recovery is better.
- High density foam cushion with hook & loop closure can provide proper compression and comfort.

Size : one size

O6-001
Leg Splint

- Idea to immobilize the postoperative or fracture leg.
- Provide 20° of support for knee and leg.
- Aluminum stays stabilize the proper position.
- The foam provides the soft cushioning.

Size : S • M • L • XL • XXL

ORTHOPEDIC PRODUCT

O6-008 Universal Thigh & Calf Splint

- Ideal to immobilize the postoperative or fracture thigh and calf.
- Aluminum stays provide stabilization.
- Soft foam cushioning.
- Simple and easy to wear.

Color:  
Size : one size

O4-013 (A) for Adult O4-019 (C) for Child Arm Splint

- Idea to immobilize the postoperative or fracture arm.
- Aluminum stays provide stabilization.
- Soft foam cushioning.
- Simple and easy to wear.

Color:  
Size : one size

O5-007 Back Frame Brace

- Immobilize the lumbar sacral spin in position after surgery or acute back injury for long term rehabilitation.
- Low profile design and molded injection frame is slight flexible, foam inner with hook and loop closure to provide comfort.

Back Height : S/12" • M/12" • L/13.8" • XL/13.8"
Size : S • M • L • XL

O5-006 TLSO Back Frame Brace

- Immobilize the lumbar sacral spin in position after surgery or acute back injury for long term rehabilitation.
- Molded injection frame is slight flexible , foam inner with hook and loop closure to provide comfort.
- Front abdominal panel can help to adjust the back brace in position.
- Additional shoulder pads can reduce some unpleased compression.

Back Height : S/18.3" • M/18.3" • L/20.7" • XL/20.7"
Size : S • M • L • XL

ORTHOPEDIC PRODUCT

O2-015 Cross-Shape Hyperextension Thoracic Spine Brace

- Ideal for upper spinal fracture or post-operative recovery.
- Immobilization thoracic spine against forward incline to relieve vertebra pain.
- Height and Angle adjustable to provide the best fit.
- One Size to fit all.

Size : One Size fits all

O2-014 Hyperextension Thoracic Spine Brace

- Restrict flexion of trunk.
- Sternal extension bar with length and angle adjustment.
- Flexible sternal pads for comfortable fit.
- Lightweight and easy to use.

Size : One Size fits all

O5-011 Hyperextension Brace

- Immobilization and hyperextension for spine
- Width and length of metal frame can be adjusted for best fit
- Flexible pelvic plate enhances comfort in sitting posture
- Buckle for easy application
- Easy to clean

Size : S • M • L • XL

SUPPORTER & HERNIA AID

- O5-003**
Athletic Supporter
- Provides good protection.
 - Prevents injury from sport activity.
 - Friendly to the skin.
 - Soft touching.

Size : S • M • L • XL • XXL

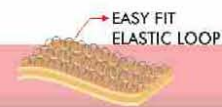

- O5-004**
Comfort Hernia Aid
- Two forming pads can provide compression on the hernia.
 - The pad can be removable for a single hernia treatment.
 - Easy application and can be worn under clothing.
 - Made of ventilation, gentle material and friendly to the skin.

Size : XS • S • M • L • XL • XXL

RIB BELT

- A2-006**
Rib Vest
- Elastic material provides proper compression.
 - Vest type for easy use.

Size : S • M • L • XL • XXL

- B2-004**
Rib Belt (Male)
- Idea for postoperative chest.
 - Promote good posture and bracing.
 - EASY FIT elastic loop can provide perfect fit.
 - Good ventilation material.
 - Improve the circulation of blood.

Size : S/M • L/XL • XXL

- B2-005**
Rib Belt (Female)

FINGER SPLINT

- O0-003**
Baseball Splint
- Immobilize the phalangeal joints.
 - Adopt malleable aluminum with foam cushion which can be adjusted a proper shape for flexion or extension treatment.
 - Provide firm stabilization and treatment.

Size : S • M • L

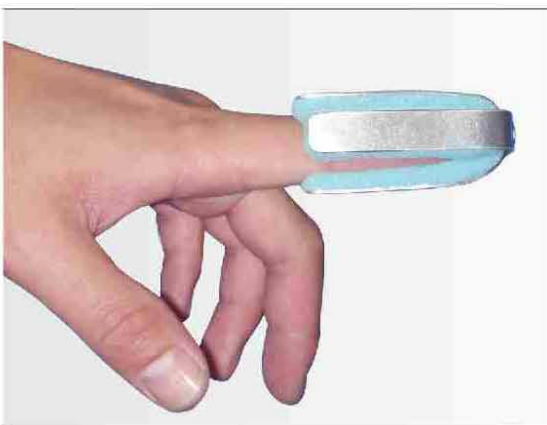

- O0-004**
Folding Cot Finger Splint
- Immobilize the injured or fracture finger.
 - Adopt malleable aluminum with foam cushion.
 - Protect the tip of finger especially.
 - Provide firm stabilization and treatment.

Size : S • M • L • XL

- O0-008**
Perforated Folding Cot Finger Splint
- Immobilize the injured or fracture finger.
 - Adopt malleable perforated aluminum with foam cushion.
 - Protect the tip of finger and good ventilation especially.
 - Provide firm stabilization and treatment.

Size : S • M • L • XL

- O0-006**
Thimble Finger Splint
- Immobilize the injured or fracture finger.
 - Adopt malleable aluminum with foam cushion.
 - Easy application.
 - Provides total finger protection.

Size : S • M • L

FINGER SPLINT

00-007 Frog Finger Splint

- Immobilize the phalangeal joint in position without any tape.
- Adopt malleable aluminum with foam cushion.
- Easy application.
- Provides total finger protection.

Size : S • M • L

00-005 Curved Finger Splint

- Immobilize the injured or fracture finger.
- Adopts malleable aluminum with foam cushion.
- The cured top can protect the tip of finger.
- Provides treatment of transverse fractures.

Size : S • M • L • XL

SILICONE FOOT CARE & INSOLE

*The silicone foot care and insole series is made of molded medical grade silicone.
It is non-allergic for skin, odor free, and easy to be washed by hand, dry in the air.*

00-010 Silicone Big Toe Separator

- Align the valgus big toe and 2nd toe in position and avoid overlapping.
- Relieve the uncomfortable from friction between 1st and 2nd toe.
- 1 pair per pack.

Size : S • M • L

SILICONE FOOT CARE & INSOLE

00-016 Silicone Toe Retractor

- Avoid toes overlapping and unpleasant compression.
- Relieve pain caused by callous between toes.
- 1 pair per pack.

Size : S • M • L

00-011 Silicone Hallux Valgus Protector

- Relieve the uncomfortable from Hallux Valgus.
- It helps the toe and articulation to be treated and distribute the load.
- 1 pair per pack.

Size : S/M • L/XL

00-012 Silicone Tubular Protection

- The TPR coated with elastic tubular bandage.
- It can relieve the pain from callous, corns, hammer toes.
- It can be cut by any desire length.
- 1 piece per pack.

Length: 15cm per piece
Size : One Size

00-017 Silicone Toe Cap

- Prevents or relieves digital or nail lesions.
- Relieves the pain from callous, corns, hammer or blisters toes.
- 1 pair per pack.

Size : S/M • L/XL

SILICONE FOOT CARE & INSOLE

00-019
Silicone Toe Pad

- The ring at 3rd toes and under digital to support the toes.
- Prevents or relieves from callous, corns, hammer.
- 1 pair per pack.

Size : S • M • L

00-013
Silicone Metatarsal Pad

- Ring at 2nd toes and be positioned in metatarsus heads.
- Absorb the shock impact and prevent callous and metatarsal pain.
- 1 pair in per pack.

Size : S/M • L/XL

00-018
Metatarsal Pad with Toe Retractor

- Toe retractor are between 1st and 2nd toes to avoid overlapping and the pad to be positioned in metatarsus heads.
- Absorb the shock impact and prevent callous and metatarsal pain.
- 1 pair in per pack.

Size : S/M • L/XL

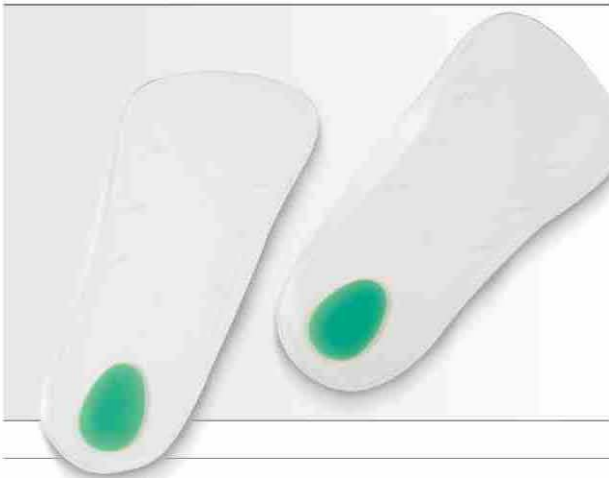

00-020
Tubular Metatarsal Pad

- The Metatarsal pad was coated on elastic tubular bandage.
- Elastic tubular bandage is stretchable, comfort and also can fix the pad in position well.
- Absorb the shock impact and prevent callous and metatarsal pain.
- 1 pair in per pack.

Size : One Size

SILICONE FOOT CARE & INSOLE

00-021
3/4 Insole Pad

- Absorb impacts in the area of heel and metatarsal area and reduce the shock and vibration to the joints, back and hip.
- Extra- soft green insert provide additional cushion.
- 1 pair in per pack.

Size : S • M • L

00-014
Silicone Full Insole Pad

- Absorb impacts in the area of heel and metatarsus area and reduce the shock and vibration to the joints, back and hips.
- Extra-soft green insert provide additional cushion.
- The pad with vents can provide good ventilation.
- 1 pair in per pack.

Size : SS • S • M • L • XL • XXL

00-015
Heel Pad

- Absorb impacts in the area of heel area and reduce the shock and vibration to the joints, back and hip.
- Extra- soft green insert provide additional cushion.
- 1 pair in per pack.

MEDICAL COMPRESSION STOCKING

The best way to cure or prevent the venous disease is wearing the compression stocking. The graduated compression stocking can provide therapeutic effect for your leg to accelerate the blood circulation, 100% pressure at ankle, and gradually up to calf is 70%, and thigh is 40%, therefore creating upward force of venous return.

SuperOrtho® compression stocking was made by high-tech advanced machines, anatomical and stylish design, seamless knitting, four way stretch structure, and it is very easy to put on and off.

All production procedures are from raw materials, then wrapping yarn, pattern design, sampling, knitting, sewing, forming shape, packaging, and finish products. The company strictly implements all quality control system and already obtained in compliance with ISO 13485, CE, FDA 510K.

Our main target is making the compression stocking to be worn comfortable, stylish vision and looks likenon-medical stocking, but it can achieve medical efficiency and make treatment very easy in your ordinary life.

Medical compression stocking are classified for different classes, and according to the venous indication as below can help to determine on different compression classes.

Compression	mmHG	Indication
Class I	15-20	<ul style="list-style-type: none"> Prevent mild varicose veins Relieve leg aching and fatigue Improves blood circulation Sitting or standing too long (Lack of exercise) Leg swelling or mild varicose veins in primary pregnancy stage.
Class II	20-30	<ul style="list-style-type: none"> Relieve chronic leg fatigue. Relieve lymph edema, moderate tumidity. Varicose veins, venous aneurysm
Class III	30-40	<ul style="list-style-type: none"> Deep vein thrombosis Post-thrombotic syndrome Secondary varicose veins

ULTRA-COMFORT

- Adopted quality yarns and high denier elastic fibers to give optimum and comfort fit.
- Soft and wider band for AD and AG to provide more comfortable fit.
- Contain more elastic in the toes parts and wider toe for closed toe.
- Reinforced heel to prevent slippage and help to fit snugly.
- 4-way stretches construction very easy to put on and off.
- Very soft touching and friendly to the skin
- Comfort and stylish to achieve medical efficiency.
